# SAMUEL ADEWALE

Mobile Engineer

## CONTACT

+234 9129025065

fatokiadewale@gmail.com

Lagos, Nigeria

## SKILLS & TECHNOLOGIES

- React Native
- reactJs
- NestJs
- Node.js,
- Express.js
- TypeScript
- JavaScript
- MongoDB

## CLOUD SERVICES

- Aws Cloud
- Ec 2
- S 3 Bucket
- Lambda
- DynamoDb

## LANGUAGES

- English (Fluent)

## EDUCATION

**2022 - 2026**

- MIVA UNIVERSITY

## PERSONAL PROFILE

fullstack Engineer specializing in React Native, Node.js, AWS, and scalable system architecture. with Proven track record in building high-performance, secure, and distributed applications. Passionate about system optimization, API development, and cloud solutions, ensuring reliable and efficient infrastructure.

## WORK EXPERIENCE

**SIMRO TECHNOLOGIES ABUJA | MOBILE DEVELOPER (2022 - 2023)**

- Set up CI/CD pipelines with GitHub Actions and Fastlane for automated app deployment.

- Cut deployment time by 40%, accelerating release cycles.
- Integrated CodePush/EAS for OTA updates and real-time fixes.
- Worked with backend/DevOps to ensure smooth API and system integration.
- Optimized app performance and API handling across iOS and Android.

**SOZOH TECHNOLOGIES | FULLSTACK (2023 - 2024)**

- Designed automated delivery pipelines using modern DevOps tools for mobile apps.
- Accelerated publishing process by 40%, boosting deployment speed and reliability.
- Enabled instant app updates with live deployment solutions like CodePush and EAS.
- Partnered with cross-functional teams to ensure seamless backend connectivity.
- Tuned app performance for smoother UX and faster load times on both platforms

**BLOOMZON | MOBILE DEVELOPER (2024 - PRESENT)**

- Designed automated delivery pipelines using modern DevOps tools for mobile apps.
- Accelerated publishing by 40%, enhancing deployment speed, reliability, and team velocity.
- Enabled instant updates via live deployment tools like CodePush and EAS.
- Collaborated with cross-functional teams to ensure seamless backend and API integration.
- Optimized performance for smoother UX and faster load times across iOS and Android.
-

## CERTIFICATION

- AWS Solution Architect Certification – Udemy 2022
- Node Express Certification – Udemy 2022

**IMPLEMENTATION SUCCESS**

- CI/CD Pipelines (Simro Technologies)
- Tools: GitHub Actions, Docker
- Reduced manual deployment efforts by 80%
- Achieved automated testing and error detection before production release

**SOZOH TECHNOLOGIES | FULLSTACK**

- Jest / Detox / Appium – Unit, integration, and end-to-end testing
- Xcode – iOS development and simulator

**MICROSERVICES OPTIMIZATION**

- Tools: Node.js, Express.js, RabbitMq
- Migrated from monolithic to microservices architecture
- 3x performance boost and reduced latency by 40%
